SUBJECT INDEX

Acid strength
Catalytic oligomerization of ethene over nickel-exchanged amorphous silica-aluminas; effect of the acid strength of the support 295
Active coke
Composition and structure of active coke in the oxydehydrogenation of ethylbenzene 311
Adsorption
Controlled coke deposition on zeolite ZSM5 and its influence on molecular transport 21
Adsorption
The catalytic hydrogenation of benzene over supported metal catalysts. I. Gas-phase hydrogenation of benzene over ruthenium-on-silica 73
Adsorption
The catalytic hydrogenation of benzene over supported metal catalysts. II. Gas-phase hydrogenation of benzene over copper-on-silica 91
Adsorption
Kinetic modelling of hydrogenation of butynediol using 0.2% Pd/C catalyst in a slurry reactor 141
Adsorption
Selective decomposition of isobutylaldehyde to propene, carbon monoxide and hydrogen 203
Adsorption
Catalytic oxidation of CO on sodium-treated NiO/Al_2O_3 solid 235
Adsorption
Composition and structure of active coke in the oxydehydrogenation of ethylbenzene 311
Ageing
Sulfur tolerance of methanol synthesis catalysts: modelling of catalyst deactivation 1
Ageing
Controlled coke deposition on zeolite ZSM5 and its influence on molecular transport 21
Ageing
Influence of the cerium content of CeHY catalysts on their physicochemical and catalytic properties 43
Ageing
Initial catalyst deactivation in the hydrotreatment of coal liquid over Ni-Mo and Co-Mo-gamma-Al_2O_3 catalysts 125
Ageing
Catalyst selection for the synthesis of methylpyrazine 161
Ageing
Alkylation of phenol with anisole over zeolites or gamma-alumina 327
Alcohol synthesis
Direct alcohol synthesis from syngas on $Ru-Mo-Na/Al_2O_3$ catalysts: effects of physical properties of alumina supports 285
Alcohol synthesis
Preparation of $Ir-Mo-Na_2O$ composite catalysts and their performances for alcohol synthesis from syngas 361
Alkylation
Alkylation of phenol with anisole over zeolites or gamma-alumina 327
Alumina
Alkylation of phenol with anisole over zeolites or gamma-alumina 327
Anisole
Alkylation of phenol with anisole over zeolites or gamma-alumina 327
Automotive exhaust catalyst
Characterization of silver catalysts for the oxidation of methanol 261
Beckmann rearrangement of cyclohexane oxime
Vapor-phase Beckmann rearrangement over alumina-supported boria catalyst prepared by vapor decomposition method 107
Benzene hydrogenation
The catalytic hydrogenation of benzene over supported metal catalysts. I. Gas-phase hydrogenation of benzene over ruthenium-on-silica 73
Benzene hydrogenation
The catalytic hydrogenation of benzene over supported metal catalysts. II. Gas-phase hydrogenation of benzene over copper-on-silica 91
Boron oxide/alumina
Vapor-phase Beckmann rearrangement over alumina-supported boria catalyst prepared by vapor decomposition method 107
Burn-off experiments
Composition and structure of active coke in the oxydehydrogenation of ethylbenzene 311
Butene isomerization
Kinetics of the isomerization of butenes over an industrial $Co-Mo/Al_2O_3$ catalyst. I: Determination of the relative rate

constants by the method of Wei and Prater 219
Butynediol hydrogenation
Kinetic modelling of hydrogenation of butynediol using 0.2% Pd/C catalyst in a slurry reactor 141
Carbon monoxide hydrogenation
Sulfur tolerance of methanol synthesis catalysts: modelling of catalyst deactivation 1
Carbon monoxide hydrogenation
Selectivity of Rh catalysts in the syngas reactions. On the role of supports and promoters 243
Carbon monoxide hydrogenation
Direct alcohol synthesis from syngas on Ru-Mo-Na/Al_2O_3 catalysts: effects of physical properties of alumina supports 285
Carbon monoxide hydrogenation
Fe/Mn oxide catalysts for Fischer-Tropsch synthesis. Part V. XPS surface characterization of calcined and reduced samples 335
Carbon monoxide hydrogenation
Iron/manganese oxide catalysts for Fischer-Tropsch synthesis. Part VI. Surface characterization during start-up period and pseudo-steady state synthesis 351
Carbon monoxide hydrogenation
Preparation of Ir-Mo-Na_2O composite catalysts and their performances for alcohol synthesis from syngas 361
Catalyst characterization
Preparation and properties of Raney copper-zinc catalyst pellets for methanol synthesis 31
Catalyst characterization
Influence of the cerium content of CeHY catalysts on their physicochemical and catalytic properties 43
Catalyst characterization
The catalytic hydrogenation of benzene over supported metal catalysts. I. Gas-phase hydrogenation of benzene over ruthenium-on-silica 73
Catalyst characterization
The catalytic hydrogenation of benzene over supported metal catalysts. II. Gas-phase hydrogenation of benzene over copper-on-silica 91
Catalyst characterization
Vapor-phase Beckmann rearrangement over alumina-supported boria catalyst prepared by vapor decomposition method 107
Catalyst characterization
Initial catalyst deactivation in the hydrotreatment of coal liquid over Ni-Mo and Co-Mo-gamma-Al_2O_3 catalysts 125
Catalyst characterization
Kinetics of the isomerization of butenes over an industrial Co-Mo/Al_2O_3 catalyst. I: Determination of the relative rate constants by the method of Wei and Prater 219
Catalyst characterization
Catalytic oxidation of CO on sodium-treated NiO/Al_2O_3 solid 235
Catalyst characterization
Selectivity of Rh catalysts in the syngas reactions. On the role of supports and promoters 243
Catalyst characterization
Characterization of silver catalysts for the oxidation of methanol 261
Catalyst characterization
Composition and structure of active coke in the oxydehydrogenation of ethylbenzene 311
Catalyst characterization
Fe/Mn oxide catalysts for Fischer-Tropsch synthesis. Part V. XPS surface characterization of calcined and reduced samples 335
Catalyst characterization
Iron/manganese oxide catalysts for Fischer-Tropsch synthesis. Part VI. Surface characterization during start-up period and pseudo-steady state synthesis 351
Catalyst deactivation
Sulfur tolerance of methanol synthesis catalysts: modelling of catalyst deactivation 1
Catalyst preparation
Preparation and properties of Raney copper-zinc catalyst pellets for methanol synthesis 31
Catalyst preparation
Promoter action of KCl on $CuCl_2/SiO_2$ catalysts used for the oxyhydrochlorination of methane 55
Catalyst preparation
Liquid-phase oxidation of p-xylene catalyzed by supported metal oxides 67
Catalyst preparation
The catalytic hydrogenation of benzene over supported metal catalysts. I. Gas-phase hydrogenation of benzene over ruthenium-on-silica 73
Catalyst preparation
The catalytic hydrogenation of benzene over supported metal catalysts. II. Gas-phase hydrogenation of benzene over copper-on-silica 91

Catalyst preparation
Vapor-phase Beckmann rearrangement over alumina-supported boria catalyst prepared by vapor decomposition method 107
Catalyst preparation
The role of lead in the selectivity of palladium-lead (Lindlar type) catalysts 117
Catalyst preparation
Selective decomposition of isobutylaldehyde to propene, carbon monoxide and hydrogen 203
Catalyst preparation
Catalytic oxidation of CO on sodium-treated NiO/Al_2O_3 solid 235
Catalyst preparation
Selectivity of Rh catalysts in the syngas reactions. On the role of supports and promoters 243
Catalyst preparation
Characterization of silver catalysts for the oxidation of methanol 261
Catalyst preparation
Direct alcohol synthesis from syngas on $Ru-Mo-Na/Al_2O_3$ catalysts: effects of physical properties of alumina supports 285
Catalyst preparation
Non-porous stabilized ZrO_2 particles as support for catalysts 305
Catalyst preparation
Preparation of $Ir-Mo-Na_2O$ composite catalysts and their performances for alcohol synthesis from syngas 361
Coal liquid hydrotreatment
Initial catalyst deactivation in the hydrotreatment of coal liquid over Ni-Mo and Co-Mo-gamma-Al_2O_3 catalysts 125
Cobalt oxide
Liquid-phase oxidation of p-xylene catalyzed by supported metal oxides 67
Cobalt-molybdenum/alumina
Initial catalyst deactivation in the hydrotreatment of coal liquid over Ni-Mo and Co-Mo-gamma-Al_2O_3 catalysts 125
Cobalt-molybdenum/alumina
Kinetics of the isomerization of butenes over an industrial $Co-Mo/Al_2O_3$ catalyst. I: Determination of the relative rate constants by the method of Wei and Prater 219
Coke formation
Controlled coke deposition on zeolite ZSM5 and its influence on molecular transport 21
Coke formation
Influence of the cerium content of CeHY catalysts on their physicochemical and catalytic properties 43
Coke formation
The catalytic hydrogenation of benzene over supported metal catalysts. I. Gas-phase hydrogenation of benzene over ruthenium-on-silica 73
Coke formation
Initial catalyst deactivation in the hydrotreatment of coal liquid over Ni-Mo and Co-Mo-gamma-Al_2O_3 catalysts 125
Coke formation
Composition and structure of active coke in the oxydehydrogenation of ethylbenzene 311
Copper-zinc
Preparation and properties of Raney copper-zinc catalyst pellets for methanol synthesis 31
Copper/silica
Promoter action of KCl on $CuCl_2/SiO_2$ catalysts used for the oxyhydrochlorination of methane 55
Copper/silica
The catalytic hydrogenation of benzene over supported metal catalysts. II. Gas-phase hydrogenation of benzene over copper-on-silica 91
Cracking
Controlled coke deposition on zeolite ZSM5 and its influence on molecular transport 21
Cracking
Influence of the cerium content of CeHY catalysts on their physicochemical and catalytic properties 43
Cyclohexane dehydrogenation
Mercury-promotion of platinum catalysis of dehydrogenation and dehydrochlorination 193
Cyclohexanone oxime
Vapor-phase Beckmann rearrangement over alumina-supported boria catalyst prepared by vapor decomposition method 107
Decomposition
Selective decomposition of isobutylaldehyde to propene, carbon monoxide and hydrogen 203
Dehydrochlorination
Mercury-promotion of platinum catalysis of dehydrogenation and dehydrochlorination 193
Dehydrogenation
Mercury-promotion of platinum

catalysis of dehydrogenation and dehydrochlorination 193
Dibenzothiophene hydrodesulphurization
Comparison of high and low pressure HDS activities for Mo/Al_2O_3 catalysts 375
Electron spin resonance spectroscopy
Selectivity of Rh catalysts in the syngas reactions. On the role of supports and promoters 243
Ethene oligomerization
Catalytic oligomerization of ethene over nickel-exchanged amorphous silica-alumina; effect of the reaction conditions and modelling of the reaction 175
Ethene oligomerization
Catalytic oligomerization of ethene over nickel-exchanged amorphous silica-aluminas; effect of the acid strength of the support 295
Ethylbenzene oxydehydrogenation
Composition and structure of active coke in the oxydehydrogenation of ethylbenzene 311
Fischer-Tropsch synthesis
Fe/Mn oxide catalysts for Fischer-Tropsch synthesis. Part V. XPS surface characterization of calcined and reduced samples 335
Fischer-Tropsch synthesis
Iron/manganese oxide catalysts for Fischer-Tropsch synthesis. Part VI. Surface characterization during start-up period and pseudo-steady state synthesis 351
Fischer-Tropsch synthesis
Preparation of $Ir-Mo-Na_2O$ composite catalysts and their performances for alcohol synthesis from syngas 361
Flow-circulation method
Kinetics of the isomerization of butenes over an industrial $Co-Mo/Al_2O_3$ catalyst. I: Determination of the relative rate constants by the method of Wei and Prater 219
Heptane cracking
Influence of the cerium content of CeHY catalysts on their physicochemical and catalytic properties 43
Hexane cracking
Controlled coke deposition on zeolite ZSM5 and its influence on molecular transport 21
High-pressure flow reactor
Direct alcohol synthesis from syngas on $Ru-Mo-Na/Al_2O_3$ catalysts: effects of physical properties of alumina supports 285
High-pressure flow reactor
Preparation of $Ir-Mo-Na_2O$ composite catalysts and their performances for alcohol synthesis from syngas 361
Hydrodesulphurization
Comparison of high and low pressure HDS activities for Mo/Al_2O_3 catalysts 375
Hydrogenation
Sulfur tolerance of methanol synthesis catalysts: modelling of catalyst deactivation 1
Hydrogenation
The catalytic hydrogenation of benzene over supported metal catalysts. I. Gas-phase hydrogenation of benzene over ruthenium-on-silica 73
Hydrogenation
The catalytic hydrogenation of benzene over supported metal catalysts. II. Gas-phase hydrogenation of benzene over copper-on-silica 91
Hydrogenation
Kinetic modelling of hydrogenation of butynediol using 0.2% Pd/C catalyst in a slurry reactor 141
Hydrogenation
Selectivity of Rh catalysts in the syngas reactions. On the role of supports and promoters 243
Hydrogenation
Direct alcohol synthesis from syngas on $Ru-Mo-Na/Al_2O_3$ catalysts: effects of physical properties of alumina supports 285
Hydrogenation
Fe/Mn oxide catalysts for Fischer-Tropsch synthesis. Part V. XPS surface characterization of calcined and reduced samples 335
Hydrogenation
Iron/manganese oxide catalysts for Fischer-Tropsch synthesis. Part VI. Surface characterization during start-up period and pseudo-steady state synthesis 351
Hydrogenation
Preparation of $Ir-Mo-Na_2O$ composite catalysts and their performances for alcohol synthesis from syngas 361
Hydrotreatment
Initial catalyst deactivation in the hydrotreatment of coal liquid over Ni-Mo and Co-Mo-gamma-Al_2O_3 catalysts 125
Internal combustion engine
Characterization of silver catalysts for the oxidation of methanol 261
Iridium-molybdenum-sodium/alumina
Preparation of $Ir-Mo-Na_2O$ composite

catalysts and their performances for alcohol synthesis from syngas 361
Iron-manganese oxide
Fe/Mn oxide catalysts for Fischer-Tropsch synthesis. Part V. XPS surface characterization of calcined and reduced samples 335
Iron-manganese oxide
Iron/manganese oxide catalysts for Fischer-Tropsch synthesis. Part VI. Surface characterization during start-up period and pseudo-steady state synthesis 351
Isobutylaldehyde decomposition
Selective decomposition of isobutylaldehyde to propene, carbon monoxide and hydrogen 203
Isomerization
Kinetics of the isomerization of butenes over an industrial Co-Mo/Al_2O_3 catalyst. I: Determination of the relative rate constants by the method of Wei and Prater 219
Kinetics
The catalytic hydrogenation of benzene over supported metal catalysts. I. Gas-phase hydrogenation of benzene over ruthenium-on-silica 73
Kinetics
The catalytic hydrogenation of benzene over supported metal catalysts. II. Gas-phase hydrogenation of benzene over copper-on-silica 91
Kinetics
Kinetic modelling of hydrogenation of butynediol using 0.2% Pd/C catalyst in a slurry reactor 141
Kinetics
Catalytic oligomerization of ethene over nickel-exchanged amorphous silica-alumina; effect of the reaction conditions and modelling of the reaction 175
Kinetics
Kinetics of the isomerization of butenes over an industrial Co-Mo/Al_2O_3 catalyst. I: Determination of the relative rate constants by the method of Wei and Prater 219
Kinetics
Catalytic oxidation of CO on sodium-treated NiO/Al_2O_3 solid 235
Kinetics
Alkylation of phenol with anisole over zeolites or gamma-alumina 327
Lindlar-type catalysts
The role of lead in the selectivity of palladium-lead (Lindlar type) catalysts 117
Manganese oxide
Liquid-phase oxidation of p-xylene catalyzed by supported metal oxides 67
Mercury-promotion
Mercury-promotion of platinum catalysis of dehydrogenation and dehydrochlorination 193
Methane oxyhydrochlorination
Promoter action of KCl on $CuCl_2/SiO_2$ catalysts used for the oxyhydrochlorination of methane 55
Methanol oxidation
Methanol oxidation on V_2O_5-MoO_3-TeO_3 catalysts 211
Methanol oxidation
Characterization of silver catalysts for the oxidation of methanol 261
Methanol synthesis
Sulfur tolerance of methanol synthesis catalysts: modelling of catalyst deactivation 1
Methanol synthesis
Preparation and properties of Raney copper-zinc catalyst pellets for methanol synthesis 31
Methylpyrazine synthesis
Catalyst selection for the synthesis of methylpyrazine 161
Microprobe analysis
Selectivity of Rh catalysts in the syngas reactions. On the role of supports and promoters 243
Molybdenum/alumina
Comparison of high and low pressure HDS activities for Mo/Al_2O_3 catalysts 375
Monochlorocyclohexane dehydrochlorination
Mercury-promotion of platinum catalysis of dehydrogenation and dehydrochlorination 193
Nickel-molybdenum/alumina
Initial catalyst deactivation in the hydrotreatment of coal liquid over Ni-Mo and Co-Mo-gamma-Al_2O_3 catalysts 125
Nickel/alumina
Catalytic oxidation of CO on sodium-treated NiO/Al_2O_3 solid 235
Nickel/silica-alumina
Catalytic oligomerization of ethene over nickel-exchanged amorphous silica-alumina; effect of the reaction conditions and modelling of the reaction 175

Non-porous zirconia
Non-porous stabilized ZrO_2 particles as support for catalysts 305
Oligomerization
Catalytic oligomerization of ethene over nickel-exchanged amorphous silica-alumina; effect of the reaction conditions and modelling of the reaction 175
Oligomerization
Catalytic oligomerization of ethene over nickel-exchanged amorphous silica-aluminas; effect of the acid strength of the support 295
Oxidation
Liquid-phase oxidation of p-xylene catalyzed by supported metal oxides 67
Oxidation
Methanol oxidation on V_2O_5-MoO_3-TeO_3 catalysts 211
Oxidation
Catalytic oxidation of CO on sodium-treated NiO/Al_2O_3 solid 235
Oxidation
Characterization of silver catalysts for the oxidation of methanol 261
Oxydehydrogenation
Composition and structure of active coke in the oxydehydrogenation of ethylbenzene 311
Oxyhydrochlorination
Promoter action of KCl on $CuCl_2/SiO_2$ catalysts used for the oxyhydrochlorination of methane 55
Palladium
Sulfur tolerance of methanol synthesis catalysts: modelling of catalyst deactivation 1
Palladium-lead
The role of lead in the selectivity of palladium-lead (Lindlar type) catalysts 117
Palladium/carbon
Kinetic modelling of hydrogenation of butynediol using 0.2% Pd/C catalyst in a slurry reactor 141
Palladium/silica
Selective decomposition of isobutylaldehyde to propene, carbon monoxide and hydrogen 203
Phenol methylation
Alkylation of phenol with anisole over zeolites or gamma-alumina 327
Platinum
Mercury-promotion of platinum catalysis of dehydrogenation and dehydrochlorination 193
Poisoning
Sulfur tolerance of methanol synthesis catalysts: modelling of catalyst deactivation 1
Raney copper-zinc
Preparation and properties of Raney copper-zinc catalyst pellets for methanol synthesis 31
Reaction mechanism
The catalytic hydrogenation of benzene over supported metal catalysts. I. Gas-phase hydrogenation of benzene over ruthenium-on-silica 73
Reaction mechanism
The catalytic hydrogenation of benzene over supported metal catalysts. II. Gas-phase hydrogenation of benzene over copper-on-silica 91
Regeneration
Catalyst selection for the synthesis of methylpyrazine 161
Rhodium/vanadium oxide
Selectivity of Rh catalysts in the syngas reactions. On the role of supports and promoters 243
Ruthenium-molybdenum-sodium/alumina
Direct alcohol synthesis from syngas on $Ru-Mo-Na/Al_2O_3$ catalysts: effects of physical properties of alumina supports 285
Ruthenium/silica
The catalytic hydrogenation of benzene over supported metal catalysts. I. Gas-phase hydrogenation of benzene over ruthenium-on-silica 73
Selectivity
Influence of the cerium content of CeHY catalysts on their physicochemical and catalytic properties 43
Selectivity
Promoter action of KCl on $CuCl_2/SiO_2$ catalysts used for the oxyhydrochlorination of methane 55
Selectivity
Liquid-phase oxidation of p-xylene catalyzed by supported metal oxides 67
Selectivity
The catalytic hydrogenation of benzene over supported metal catalysts. I. Gas-phase hydrogenation of benzene over ruthenium-on-silica 73
Selectivity
The catalytic hydrogenation of benzene over supported metal catalysts. II. Gas-phase hydrogenation of benzene over copper-on-silica 91
Selectivity
Vapor-phase Beckmann rearrangement over alumina-supported boria catalyst prepared by vapor decomposition method 107

Selectivity
The role of lead in the selectivity of palladium-lead (Lindlar type) catalysts 117
Selectivity
Kinetic modelling of hydrogenation of butynediol using 0.2% Pd/C catalyst in a slurry reactor 141
Selectivity
Catalyst selection for the synthesis of methylpyrazine 161
Selectivity
Catalytic oligomerization of ethene over nickel-exchanged amorphous silica-alumina; effect of the reaction conditions and modelling of the reaction 175
Selectivity
Selective decomposition of isobutylaldehyde to propene, carbon monoxide and hydrogen 203
Selectivity
Methanol oxidation on V_2O_5-MoO_3-TeO_3 catalysts 211
Selectivity
Kinetics of the isomerization of butenes over an industrial Co-Mo/Al_2O_3 catalyst. I: Determination of the relative rate constants by the method of Wei and Prater 219
Selectivity
Selectivity of Rh catalysts in the syngas reactions. On the role of supports and promoters 243
Selectivity
Characterization of silver catalysts for the oxidation of methanol 261
Selectivity
Direct alcohol synthesis from syngas on Ru-Mo-Na/Al_2O_3 catalysts: effects of physical properties of alumina supports 285
Selectivity
Alkylation of phenol with anisole over zeolites or gamma-alumina 327
Selectivity
Preparation of Ir-Mo-Na_2O composite catalysts and their performances for alcohol synthesis from syngas 361
Silica-alumina
Catalytic oligomerization of ethene over nickel-exchanged amorphous silica-aluminas; effect of the acid strength of the support 295
Silver/alumina
Characterization of silver catalysts for the oxidation of methanol 261
Sintering
The catalytic hydrogenation of benzene over supported metal catalysts. II. Gas-phase hydrogenation of benzene over copper-on-silica 91
Sintering
Characterization of silver catalysts for the oxidation of methanol 261
Sintering
Non-porous stabilized ZrO_2 particles as support for catalysts 305
Slurry reactor
Kinetic modelling of hydrogenation of butynediol using 0.2% Pd/C catalyst in a slurry reactor 141
Sulphur poisoning
Sulfur tolerance of methanol synthesis catalysts: modelling of catalyst deactivation 1
Support effect
Liquid-phase oxidation of p-xylene catalyzed by supported metal oxides 67
Surface characterization
Fe/Mn oxide catalysts for Fischer-Tropsch synthesis. Part V. XPS surface characterization of calcined and reduced samples 335
Surface characterization
Iron/manganese oxide catalysts for Fischer-Tropsch synthesis. Part VI. Surface characterization during start-up period and pseudo-steady state synthesis 351
Temperature programmed desorption
Selective decomposition of isobutylaldehyde to propene, carbon monoxide and hydrogen 203
Thermal analysis
Promoter action of KCl on $CuCl_2/SiO_2$ catalysts used for the oxyhydrochlorination of methane 55
Thiophene hydrodesulphurization
Comparison of high and low pressure HDS activities for Mo/Al_2O_3 catalysts 375
Transport characteristics
Controlled coke deposition on zeolite ZSM5 and its influence on molecular transport 21
Vanadium-molybdenum-tellurium oxides
Methanol oxidation on V_2O_5-MoO_3-TeO_3 catalysts 211
Vapour decomposition method
Vapor-phase Beckmann rearrangement over alumina-supported boria catalyst prepared by vapor decomposition method 107
X-ray photoelectron spectroscopy
Catalytic oxidation of CO on sodium-treated NiO/Al_2O_3 solid 235
X-ray photoelectron spectroscopy
Fe/Mn oxide catalysts for

Fischer-Tropsch synthesis. Part V. XPS surface characterization of calcined and reduced samples 335
X-ray photoelectron spectroscopy
Iron/manganese oxide catalysts for Fischer-Tropsch synthesis. Part VI. Surface characterization during start-up period and pseudo-steady state synthesis 351
Xylene oxidation
Liquid-phase oxidation of p-xylene catalyzed by supported metal oxides 67
Zeolites
Controlled coke deposition on zeolite ZSM5 and its influence on molecular transport 21
Zeolites
Influence of the cerium content of CeHY catalysts on their physicochemical and catalytic properties 43
Zeolites
Alkylation of phenol with anisole over zeolites or gamma-alumina 327
Zinc oxide
Catalyst selection for the synthesis of methylpyrazine 161
Zirconia
Non-porous stabilized ZrO_2 particles as support for catalysts 305
Zirconium phosphate
Composition and structure of active coke in the oxydehydrogenation of ethylbenzene 311
